Next – Line up one of the small squares on top of the large square with right (front) sides facing. Line up another small square on the opposite corner.

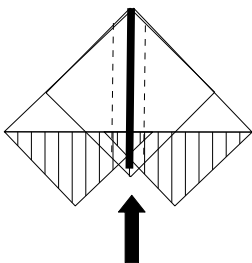

Using a scant $\frac{1}{4}$ inch seam allowance, sew down each side of the line drawn.

Cut along the line that was previously drawn and press open, so that you have two units like this.

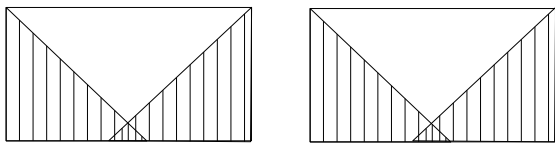

Using one of these units, take another one of the $2\frac{1}{2}$ inch squares and line it up on the remaining corner (right sides facing).

Using a scant $\frac{1}{4}$ inch seam, sew along both sides of the drawn line.

Cut along drawn line, press open. You will have two flying geese units. If needed, trim them down to the size needed: 2 inches by $3\frac{1}{2}$ inches.

Repeat all steps to get two more Flying Geese units. You should have four total.
