Making the Half Square Triangles

To make the half square triangles you will need the larger squares for the quilt size you are making (*for example, if you are making a 9" x 16.5" quilt you will need the 2.75" squares*). Set aside the smaller squares. They will be used later.

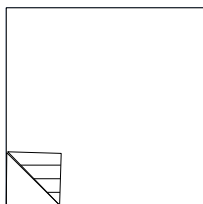

Pair up the larger squares as follows:

Background Fabric with Fabric A – 3 pairs
Background Fabric with Fabric F – 2 pairs
Fabric A with Fabric B – 2 pairs
Fabric B with Fabric C – 2 pairs
Fabric C with Fabric D – 2 pairs
Fabric D with Fabric E – 2 pairs
Fabric E with Fabric F – 2 pairs

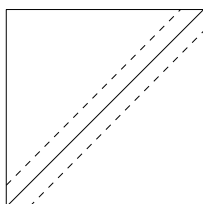

Then make the half square triangles.

Draw a diagonal line on the lighter side of back (wrong) side of one of the squares of one of the pairs. This will be your sewing guide.

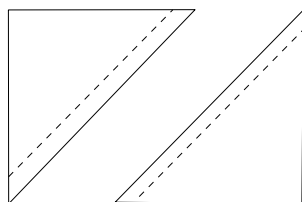

Line the two fabrics on top of each other with front (right) sides facing each other.

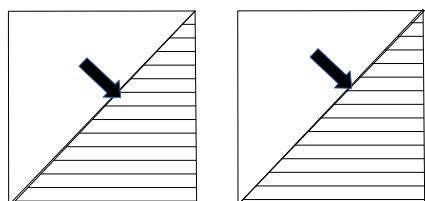

Using a $\frac{1}{4}$ inch seam allowance, sew along both sides of the diagonal line drawn earlier.

Cut down the center, along the line that was drawn earlier. You will have two blocks that now need to be pressed open.

Repeat with the remaining pairs of half square triangles. When finished there should be the following half square triangles. They will need to be trimmed down as shown in the table below. **Note: Because of the method used to make half square triangles, there will be a few extra ones left over.**

Finished Quilt Size	<u>6" x 11"</u>	<u>9" x 16.5"</u>	<u>12" x 22"</u>
Trim Half Square Triangles to this size	1.5"	2"	2.5"

Total Number of Finished Half Square Triangles Needed

- Background Fabric with Fabric A – 5
- Background Fabric with Fabric F – 3
- Fabric A with Fabric B – 3
- Fabric B with Fabric C – 3
- Fabric C with Fabric D – 3
- Fabric D with Fabric E – 3
- Fabric E with Fabric F – 3

Assembly and Layout

All of the squares for the quilt should now be the same size. Lay them out as shown in the diagram on the following page and sew the individual columns together.

Once the individual columns are sewn, join all of the columns together.

Quilt and bind as desired.
