Using a ¼ inch seam allowance, sew along both sides of the drawn diagonal line.

Cut down the center, along the drawn line. You will end up with two blocks that need to be pressed open.

Trim the blocks down so they measure 5 inches by 5 inches. Repeat with the remaining pairs. You will have a total of 12 half square triangles.

Lay out the units as shown. Sew the block together by sewing the individual rows and then sewing the rows together. The block should measure 18 ½ inches when finished.
