Line up each pair of squares with front (right) sides facing each other.

Using a $\frac{1}{4}$ inch seam allowance, sew along both sides of the drawn diagonal line.

Cut down the center, along the drawn line. You will end up with two blocks that need to be pressed open.

Trim them down to $3\frac{1}{2}$ inches square. Repeat with the other pairs. You will end up with 24 half square triangles.

Lay out your blocks as shown.

Sew the individual rows together first.

Because of the large center, sew the third and fourth rows together in one section. Sew the half square triangle sections together and then add those to the center square as shown.
